How the rotation works.

- **Mon-Fri:** two on shift – one early, one late. The third person is off shift that week.
- Weekly 3-week cycle: wk 1 Ramish early / Brett late / Darren off; wk 2 Brett early / Darren late / Ramish off; wk 3 Darren early / Ramish late / Brett off.
- Over the six months each person works **9 early weeks, 9 late weeks, 9 rest weeks.**
- **Saturdays:** one of the three on site, rotating Ramish → Brett → Darren.
